Warehouse Manager

About Us:

Weiss Technik North America, Inc., a Global provider of Environmental Test Chambers is in need of DYNAMIC talent to join our Cincinnati Facility in Sharonville, Ohio!

Job Description:

The Warehouse Manager directs warehousing activities of raw material and/or finished goods, equipment, supplies etc. Monitors operational procedures such as verification of incoming and outgoing shipments, handling and disposition of materials and maintenance of the inventory. Confers with department leaders to ensure coordination of warehousing activities with production, sales and purchasing.

Essential Duties and Responsibilities:

1. Responsibilities to include the following: Incoming receiving, warehousing, movement of materials needed for manufacturing requirements, handling of non-conforming materials and shipping operations.
2. Monitors all computer data entry as it pertains to maintaining inventory integrity.
3. Training and management of all warehouse and Material Handling personnel.
4. Management of cycle counting program for all warehouse locations.
5. Management of the physical layout of all stocking locations.
6. Manage security and maintenance of the equipment and fixtures used in all of the storage locations.
7. Monitoring of overstock and shortage situations and communication with Purchasing, Production Planning and the Production Manager to avoid unnecessary overstock or shortage situations.
8. Quality Review Board Member and process owner for Material Handling, Storage and Preservation, as it pertains to ensuring compliance with all regulations.

Evaluation criteria: Inventory Variances in warehouses, process/cost improvements, employee development.

Ensure compliance to CSZ's quality policy, quality systems regulations, cGMPs and other applicable quality system standards and regulations throughout the organization.

Communicate the importance of compliance with respect to device safety and efficacy, ramification of non-compliance, general safety rules, manufacturing procedures, company policies and applicable procedures, ISO, QSR and other regulations to direct reports. Additionally, communicate the employees' role in achieving CSZ's quality objectives and goals and CSZ's commitment to compliance. Adhere to applicable safety rules, manufacturing procedures, company policies and applicable procedures, ISO, QSR and other regulations.
